# **Bryan Witherspoon**

uoodsq.github.io

Bryan Witherspoon is a **software engineer** with over thirteen years of professional experience designing, building and delivering web applications.

## **Employment**

## **Duo Security <a href="https://duosecurity.com">Duo Security <a href="https://cisco.com">https://cisco.com</a>**

Technical Lead - Site Reliability Engineering April, 2014 - present

#### Summary

While at Duo, which was acquired by Cisco in 2018, I've grown from a frontend web developer into my current role as a Technical Lead in Site Reliability Engineering.

I've developed a handful of key features for Duo's core authentication service. Most recently, I've led the design and implementation of a data pipeline service, a project which emphasized performance, scale, reliability, automation, and security.

#### **Accomplishments**

- ➤ Designed and built a data pipeline service to store customer authentication data and generate near real-time reports.
- ➤ Led visual redesign project of product's administrative interface.
- ➤ Implemented many key features of the company's flagship product.
- ➤ Designed and built an internal dashboard for displaying business metrics.
- ➤ Continuously improved HTML, CSS and JavaScript coding standards and product's build pipeline.
- ➤ Screened and interviewed software engineer and engineering management candidates.

## **Digital Roots < https://digitalroots.com>**

Software Engineer June, 2013 - April, 2014

#### **Summary**

Responsible for designing and developing web-based user interfaces for social media engagement and reporting platform.

#### **Accomplishments**

- Designed and developed abstract reporting tool used for visualizing performance metrics.
- ➤ Built a social media command center used for data exploration by social media teams.
- ➤ Built an application for tracking performance of data processing pipeline.
- ➤ Co-organized local Ember.js meetup group <a href="http://meetup.com/Ember-Detroit">Ember-Detroit</a>>.

# Arbor Networks <a href="https://arbornetworks.com">https://arbornetworks.com</a>

Software Engineer June, 2011 - June, 2013

#### Summary

Responsible for designing and developing web-based user interfaces for distributed network security solutions.

#### **Accomplishments**

- ➤ Successfully launched initial version, major release, and several minor releases of network security application.
- ➤ Spoke to 85+ person engineering team on the topic of migrating from image-based graphs to <u>SVG</u>.
- ➤ Submitted patent application for the automatic transformation of selected text into regular expression.
- ➤ Led small to medium-sized groups in user interface design sessions.
- ➤ Participated in cross-functional user experience team.

## **Consumers Energy < https://consumersenergy.com>**

Engineer

January, 2009 - June, 2011

#### **Accomplishments**

- ➤ Designed and developed lightweight web interface for managing electronic switchgear.
- ➤ Built and programmed a wireless interface between a <u>Roomba < http://www.irobot.com/us/></u> and an electric meter to alter cleaning schedules based on the current price of electricity.

## The State News <a href="https://statenews.com">https://statenews.com</a>

Creative Director June, 2006 - January, 2009

### **Accomplishments**

- ➤ Successfully launched two major redesigns of the company's main websites and numerous internal web applications.
- ➤ Supported nightly production efforts by proofreading and formatting content for web.

## **Proficiencies**

# **Software engineering practices**

- ➤ Web application development
  - ➤ Prefers Python and Go
  - ► Built services on top of data stores like MySQL, Redis, Elasticsearch and Kafka.
  - ➤ Most familiar with Amazon Web Services
- ➤ Development lifecycle
  - ➤ Agile development
  - ➤ Version control (Git)
  - ➤ Code review
  - Continuous integration and automated testing
  - Production automation (Ansible)
  - ➤ Monitoring and alerting
- ➤ User interface
  - ► In previous roles, have done UI design and development

#### **Education**

# **Michigan State University**

Bachelor of Science, Electrical Engineering December, 2008
